

# FOAM Website Assessment Questions

Adapted from Thoma et al. *Annals of Emergency Medicine*, 2015

**Website**

**Reviewer**

**Date of Review**

Is the resource credible?

Is the editorial process independent from sponsors, conflict of interest, and other sources of bias?

Does the resource cite its references?

Is the content of this educational resource of good quality?

Is the information presented in the resource accurate?

Is the content of the resource presented in a logical, clear and coherent way?

Is the resource transparent about who was involved in its creation?

Is the identity of the resource's author clear?

Are the authorities (eg, author, editor, publisher) who created the resource free of financial conflicts of interest?
